PROFILE

A highly driven 16-year-old High School Student in the Technical Mathematics track, fueled by a strong commitment to excellence and continuous self-improvement. Combining sharp analytical logic with the high self-discipline of athletics and physical fitness, I thrive on exploring new fields and solving practical challenges. Driven by deep intellectual curiosity and strong proactive learning skills, I am dedicated to building a solid academic and personal foundation for future success.

PROJECTS

Web Portfolio

Welcome! I'm Yanis, a passionate web developer. This is my professional portfolio website where I showcase my latest projects, frontend development skills, and technical journey. Built using modern web technologies like Vite and React, this platform represents my dedication to creating clean, high-performance, and responsive user experiences.
